

Covid-19 Update

The Greek Ministry of Education has recently announced (Government Gazette No.722-24-02-2021) that undergraduate University classes will continue online for the Spring semester 2020-21.

Thus, our second semester courses will need to be held online, through the UoA e-class platform, and students will be accordingly informed shortly by their professors, who are working hard to offer them the best experience possible in this challenging time.

Nevertheless, we are making every effort to keep some of our planned museum visits and excursions to cultural places on schedule as soon as conditions allow it, by forming small groups, always adhering to the rules of social distancing and mask wearing. Hence, we remain hopeful that we'll be able to announce some outdoor activities relating to the character of this Program, later in the semester.

Meanwhile, staff is always available to assist students with anything they might need. We can always arrange an appointment to meet in-person with one student at a time, thus do not hesitate to contact us.
